Handheld Scanner

How do i reset my radio shack scanner. Radio shack scanner pro-136 owner's manual. Radio shack history. Radio shack pro 2017 scanner owner's manual. Radio shack owner. Radio shack pro 95 scanner owner's manual. Radio shack scanner pro 2036 owner manual.

SMwww.radioshack.comPRO-89 200 ChannelVHF/Air/UHF/800MHz Manual Race ScannerOWNER'S MANUAL *Please read before using this equipment. It is legal to listen to almost all transmissions that your scanner can receive. Your local RadioShack store sells a variety of antennas. Using an adapter that does not meet these specific Summary of the content Include in pAAgina 9 CHARGING AA; NOTE AA; RECHARGEABLE Do not overcharge Ni-Cd batteries. Apparars during a direct frequency sea Summary of content included on page 18 Understanding the Scanner Appears when the weather alert is on. Although some headphones or headphones allow you to hear some external sounds when listening at normal volume levels, they can still pose a hazard to traffic. Using an adapter th Summary of content included on page 8 Preparation USING BATTERY POWER You can power the scanner from a vehicle's 12V power supply (such as a cigarette lighter plug) using a 9V adapter, 300 mA DC and a size B adapter (not provided). 8 Weather Band Key AA Charge scans recharge- seven pre-programmed time capable Batteries..... Get rid of old batteries promptly We encourage you to be responsible, legal and properly. If you use headphones or headphones with the scanner while riding a bike, be very careful. Prolonged high-volume hearing can lead to permanent hearing loss. Appears when the scanner receives a data d-Err error during a wired or on-air program Summary of content included on page 19 BANKS UNDERSTORAGE BANKS To make it easier to identify and select the channels you want to listen to, the channels are divided into 10 banks of 20 channels each. PREPARATION Use only fresh batteries of the required size and INSTALL Recommended BATERIES Feed your type of scanner. Press the antenna down on the cat and rotate the base of the antenna clockwise until it is locked in place. Bank numbers with a bar under them them Banks are turned on for scanning (see "Banks of an Environment" on page 19). The batteries The overload causes them to heat up and your scanner has a built-in shortening of their life. Use each channel storage bank at group frequencies, such as those used by the Police Department, Fire Department, Ambulance Services, or aircraft (see "Guide to Action Bands" on page 54). Do not listen at extremely high volume levels. The error appears when you try to store a frequency that -DUPL is already stored on another channel. Add Frequencies to a Car Number Dry appears when you make an input error. Always use a 50 ohms coaxial cable, such as RG-58 or RG-8, to connect the base station or mobile antenna. If the antenna cable connector does not fit into the antenna socket of the scanner, you may also need an antenna plug adapter PL-259 to BNC. Using the AC power supply You can power the scanner using a 9V, 300 mA AC adapter and a Size B Adaptaplug A adapter (none of the two supplied). Summary of Content Included on Page 3 Scan at the races 35 Screen backlighting: makes the scanner storing a car number easy to read in light and low light frequency ... PRI / ALERT converts the priority function inside and outside; Converts WX alert mode to Summary of Content INCLUDED IN PAGE 16 Understanding the scanner A glance at the screen The status of the screen description appears when you lock the keyboard. 38 The scanner of internal batteries that change the number of cars stored for example, the police department could use four frequencies, one for each side of the city. It appears with numbers (1, 10) to indicate the bank scan. Appears when the scanner A Connecting the Air Programming or Air Start When the scanner receives a C-ERR test sum amount during cable programming or in the air. Using AC power To do this, simply use the need to use a AC adapter scanner until 9V is supplied (Radioshack Fla Summary of content included in the 10 Preparation 1. Appears when the scan scan channels. Precautions: You must use a class 2 power! Source that supplies 9V DC and offers at least 300 mA. For 50-foot lengths, the USERG-8LOW-ADODIELECTRIC coaxial cable. Appears when the priority function is activated. Over time, your ears adapt to the volum summary of content included in PAgina 13, so you can create a danger of traffic and it could be illegal in some areas. Your local precaution radioshack store has a wide range does not run the variety of coaxial antenna cable on sharpening and connectors. You can also search the search banks for services, which are pre-established groups of frequencies categorized by type of service. Its central tip should be SetToPositiveAndSpplug must be adapted to the PWR DC 9V of the scanner. Do not burn or bury the batteries. After starting to listen, adjust the volume to a crop level. Load circuit that allows the Batteries Ni-CD Last rechargeable batteries for more time and offer more energy if it is white on the scanner. It appears when you set the programming wired mode with cable to program frequencies on your scanner. Once you configure the volume, do not increase it. Appears when you save the automobile numbers and automobile frequencies on the scanner channels, add and eliminate frequencies from the automobile numbers, the screen c Summary of content included in PA Gina 17 appears during the Service Bank and the direct frequency busers of SRCH. 38 (Non-rechargeable batteries, rechargeable NI-MH display frequencies (Nickel metal associated with an automotive hydride) or regular or high number Man appears when Program Frequencies In PGM the channels of the scanner. PRI appears when program a delay of 2 seconds. 6 important calls. SUMMARY OF THE CONTENT INCLUDED IN THE POSITION 4 FCC NOTICE Help it to highlight frequency ranges in YourserviceEau can look for a wide variety of transmissions.
